DEFENCE TIES DEEPEN WITH FRESH SUPPORT DEALS

US clears Apache, howitzer support services for India

AMRITA NAYAK DUTTA
New Delhi, May 19

THE US HAS approved the proposed sale of support services and related equipment for Apache helicopters to India at an estimated cost of \$198.2 million, noting that this will improve Delhi's capability to meet current and future threats, strengthen its homeland defence, and deter regional threats.

In a statement, the US Department of State said it also approved a possible sale of sustainment support for M777A2 Ultra-Light Howitzers for an estimated cost of \$230 million.

The developments come at a time when the US and India are in the final stages of negotiating a comprehensive bilateral trade agreement, after having established a framework for an interim trade pact.

In November last year, the US approved the sale of Excalibur projectiles, the Javelin missile system, and other related equipment to India for over \$90 million. Around the same time, India signed Letters of Offer and Acceptance (LOAs) with the US for sustainment support of the Indian Navy's fleet of MH60R helicopters through Follow on Support and Follow on Supply Support for a period of five years worth ₹7,995 crore.

Additionally, the Indian Defence Acquisition Committee, earlier this year, cleared the acquisition of six P-8I maritime surveillance and anti-submarine warfare aircraft from the US for the Indian Navy.

According to a statement from the Department of State, India had requested to buy AH-64E Apache sustainment support services; US government and contractor engineering, technical, and logistics support services; technical data and

work for the US-India major defence partnership, signalling stable ties in the defence sector.

The vision for bilateral defence cooperation was encapsulated in the September 2013 Joint US-India Declaration on Defence Cooperation and the 2015 Framework for the US-India Defence Relationship, in which the two countries committed themselves to increasing cooperation in the sector.

Between 2016 and 2020, the two sides signed four more agreements, including the Logistics Exchange Memorandum of Agreement (LEMOA) in 2016, the Communications Compatibility and Security Agreement (COMCASA) in 2018, and the Basic Exchange and Cooperation Agreement (BECA) in 2020.

In August 2024, both countries signed a Security of Supply Arrangement (SOSA) and a Memorandum of Agreement regarding the Assignment of Liaison Officers, among other bilateral military agreements that have enhanced defence and security cooperation.

In September last year, Indian and American troops participated in a two-week military exercise "Yudh Abhyas" at Fort Wainwright in Alaska.

A week before that, the US submarine support ship USS Frank Cable visited Chennai on a scheduled port visit — the Military Sealift Command's second to the region in two years.

Big-ticket Indian procurements from the US include 31 MQ-9B High Altitude Long Endurance (HALE) Remotely Piloted Aircraft Systems, the deal for which was inked in October 2024, MH-60R Seahawk multi-role helicopters, Sig Sauer rifles, and M777 ultra-light howitzers.

"This proposed sale will support the foreign policy and national security objectives of the United States by helping to strengthen the US-Indian strategic relationship and to improve the security of a major defense partner which continues to be an important force for political stability, peace, and economic progress in the Indo-Pacific and South Asia regions," the statement said about both the sales.

"The proposed sale of this equipment and support will not alter the basic military balance in the region," it said.

In October last year, the two countries signed the "frame-

publications; personnel training; and other related elements of logistics and programme support.

It said the proposed sale will improve "India's capability to meet current and future threats, strengthen its homeland defence, and deter regional threats. India will have no difficulty absorbing these articles and services into its armed forces."

The contractor that the principal contractor will be Boeing and Lockheed Martin.

In a separate statement, it said India had requested to buy long-term sustainment support for M777A2 Ultra-Light Howitzers, which includes ancillary items; spares; repair and return; training; technical assistance; field service representative;

generators only in emergency or essential situations.

Annual advertising jamboree looks to define AI-led future

CHRISTINA MONIZ
Mumbai, May 19

INDIA'S ANNUAL ADVERTISING festival, Goafest, will commence today at the Taj Cidade de Goa at Dona Paula. This is the 19th edition of the festival, which will bring together over 60 industry leaders to drive over 20 knowledge sessions and 15 masterclasses over the next three days.

Among the speakers this year are industry leaders such as Prason Joshi of Omnicom Advertising and chairman at Prasar Bharti, Sam Balsara of Madison World, McCann Group's Dheeraj Sinha, Rana Barua of Havas, Eugene Cheong of Euge Publishing, Gulshan Varma of Amazon Ads, Leo's Amitesh Rao, Aditi Mishra of Lodestar and author and columnist Santosh Desai.

Given the rapidly evolving nature of the advertising business, the knowledge sessions will address various subjects such as the rise of AI influencers, the future of data ownership, changing media consumption habits and identifying new pathways for advertising-driven business growth.

Day one of the festival will have a special tribute to two

advertising legends who passed away last year — Ogilvy's Piyush Pandey and Rediffusion's Diwan Arun Nanda.

This year will also see the 57th edition of the prestigious Abby Awards that honours excellence in categories such as media, broadcasting, design, public relations, technology, digital and more. Organisers say that over 300 organisations have sent in a total of over 4,000 entries. These include agencies, brands, production houses and media platforms.

Dheeraj Sinha, president of The Advertising Club and CEO of McCann India, notes that the

Abby Awards for advertising excellence; over 300 organisations will participate

Abby as a platform has been balancing legacy with agility in the light of the changing advertising ecosystem. "The Awards have been embracing global standards, AI, client inclusion and emerging marketing disciplines," he says.

This year, new awards have been introduced such as the Creative Network of the Year, Media Network of the Year, and Independent Agency of the Year. This is especially interesting, considering that independent agencies emerged the biggest winner at The Abby's last year.

Aalav Desai, co-founder and CCO of ftgh, expects independent agencies to shine once

again this year. "A lot of clients have retained with network agencies but are coming to independents for projects where they want something different or better. When you multiply this with work throughout the year, the entries from independents stack up in numbers and are more interesting by nature. This obviously has better conversion into metals," he remarks.

Desai adds that the forum also needs to discuss the effects of consolidation across networks. "We know that jobs are being affected in the industry. If the work has suffered as a result, it will show in the award wins," he says.

As always, Goafest will have its share of sports and glamour with personalities such as Harmanpreet Kaur, captain of the Indian women's cricket team, Bollywood veteran Rakesh Bedi, Bhargava star Sukhbir and Bollywood singer Neeti Mohan participating. This year's festival will also see the celebration of the 80th anniversary of the Advertising Agencies Association of India (AAAI). The event typically draws over 2,000 industry attendees each year and is co-hosted by AAAI and The Advertising Club.

Delhi-NCR faces GRAP-1 curbs again

THE COMMISSION FOR Air Quality Management (CAQM) on Tuesday imposed stage one measures in Delhi-NCR under the Graded Response Action Plan (GRAP) as air quality slipped into the 'poor' category, officials said.

"Delhi's AQI has shown an increasing trend and recorded 208 ('poor' category) today. Furthermore, the forecast by IMD/ITM indicates the AQI to remain in the 'poor' category in the coming days," a

senior official said. "Accordingly, the CAQM sub-committee on GRAP decided to invoke all actions as per stage I of the extant GRAP with immediate effect in the entire NCR," the official said.

Under GRAP-1, restrictions are placed, such as banning the use of coal and firewood as fuel in hotels, restaurants, and open eateries, and allowing diesel

generators only in emergency or essential situations.

GRAP has four stages, each linked to the AQI at the time.

The first stage, GRAP-1, kicks in when the AQI is between 201 and 300; the second stage, GRAP-2, is invoked when the AQI is between 301 and 400; GRAP-3 kicks in between 401 and 500; and GRAP-4 is invoked when the AQI is above 450.
